WANTS TO SECEDE.

The following dispatch has been sent out from Georgetown, Colorado: A petition is being circulated secede and join the Republic of Mexice. Mayor Parker, whose name heads the petition, says it will be circulated in every mining camp in

the West. Before we sign any such petition we want to know whether we will be any better off than we are now. And it might be a good idea to find out whether Mexico wants us or not.

There are a number of other things in this connection which might be judiciously considered, viz:

The proposition means war, the ininevitable result of which would be that the seceding States would be suddenly and terribly defeated, and then the condition of the inhabitants of those States would never be such that they could say their souls were their own.

We are not in any particular hurry to secede. We can get relief from the Populist party without bloodshed.
